※1 If installed with Honda Smart Key System, radio wave keyless entry system will be integrated in the Honda Smart Key System. ※2 Gasoline car is equipped with "Push Engine Start / Stop Switch" instead of "Power Switch". ※3 4-speaker if installed with Honda INTER NAVI or special package with navigation. ※4 If Honda INTER NAVI is installed, accessory socket (in console box) will be installed. ※5 External temperature / clock will be displayed in the meter to the left. ※6 Prime smooth leather is used on seat surface of every seat, front side of headrest, large armrest of high deck centre console, etc. Sides and back surfaces of every seat, seatback packets, etc. use synthetic leather. ※7 Hybrid car & gasoline car, FF car & 4WD have different capacities and shapes respectively.

■ It may not be possible to install certain combinations together under Manufacturer Options. In addition, other manufacturer options may be installed as a set. Please enquire with your dealer for details.
 ■ As manufacturer options are installed at the factory, please understand that we cannot accept requests made after the purchase. ■ Specifications and equipment are subject to change without notice. Your understanding is appreciated ■ Photographs on the home page may show slightly different colours than actual. ■ A car that is equipped with Honda Internavi will have a dedicated communications device installed. ■ Delivery lead time may be different depending on the types, colours, options, among others. ■ Please enquire with your dealer for details
